

DECLARATION of REACH, SVHC and Halogens

The Producers & manufactures of Ultralen´s K & TK wet & thermal laminating & packaging films declare; that these materials are produced in compliance with the REACH regulation 1907/2006/EC. We have confirmation from the producers & manufacturers that these materials do not contain any "Substances of Very High Concern" listed, above 0.1% (w/w).

These substances are listed in the candidate list by the European Chemicals Agency ECHA (updated on the 19th January 2021 and extended to an amount of 211 substances). These substances can be found by using the link below:

<https://echa.europa.eu/candidate-list-table>

The candidate list will be extended regularly as well as the Annexes XIV (substances subject to authorization) and XVII (restrictions of certain dangerous substances, preparations and articles).

If contrary to our expectations information from the Manufactures & producers that substances to an amount > 0.1% (w/w) are found to be present in the products we will inform you as soon as possible.

Specific analysis for these substances will not be performed by us; we rely on the declarations of the producers & manufactures.
